LAB Sped

A global company with the care of local service

Our company is rooted in the experience and expertise of Giorgio Benfatto, who has been working in the shipping industry since 1976.

LAB Sped was born from Benfatto's vision and dedication, who, after accumulating extensive knowledge of the industry, decided to found a company capable of offering global logistics services on an international scale.

In 2024, his son Alessandro also joined LAB Sped, helping to make the company a consolidated and recognized reality in the competitive global market.

At LAB Sped, professional competence and technical knowledge are our strengths. Our cohesive and qualified team treats every customer as an individual, not just a number, offering personalized solutions and top-notch customer service. With LAB Sped, you can count on a logistics partner that combines tradition and innovation to ensure that every shipment arrives at its destination safely, on time, and efficiently.

Our Vision and Mission

Vision

Our Vision is to provide global logistics services worldwide, respecting people, safety, and the environment. We envision a future where every shipment is managed with efficiency, transparency, and responsibility. We aim to be leaders in the logistics sector, promoting sustainable practices and technological innovations that reduce environmental impact.

Our vision is to build lasting relationships with clients, based on trust and excellence in service, to become the reference partner in global logistics solutions.

Mission

Our Mission is to make a difference in the market by investing in cutting-edge technologies and the talent of people, to best meet our clients' needs, offering high-quality operational consulting services.

Our objectives

Our commitment is to constantly increase the level and quality of service we offer to our clients.

We believe that customer satisfaction is fundamental to our success and we work to improve every aspect of our operations.

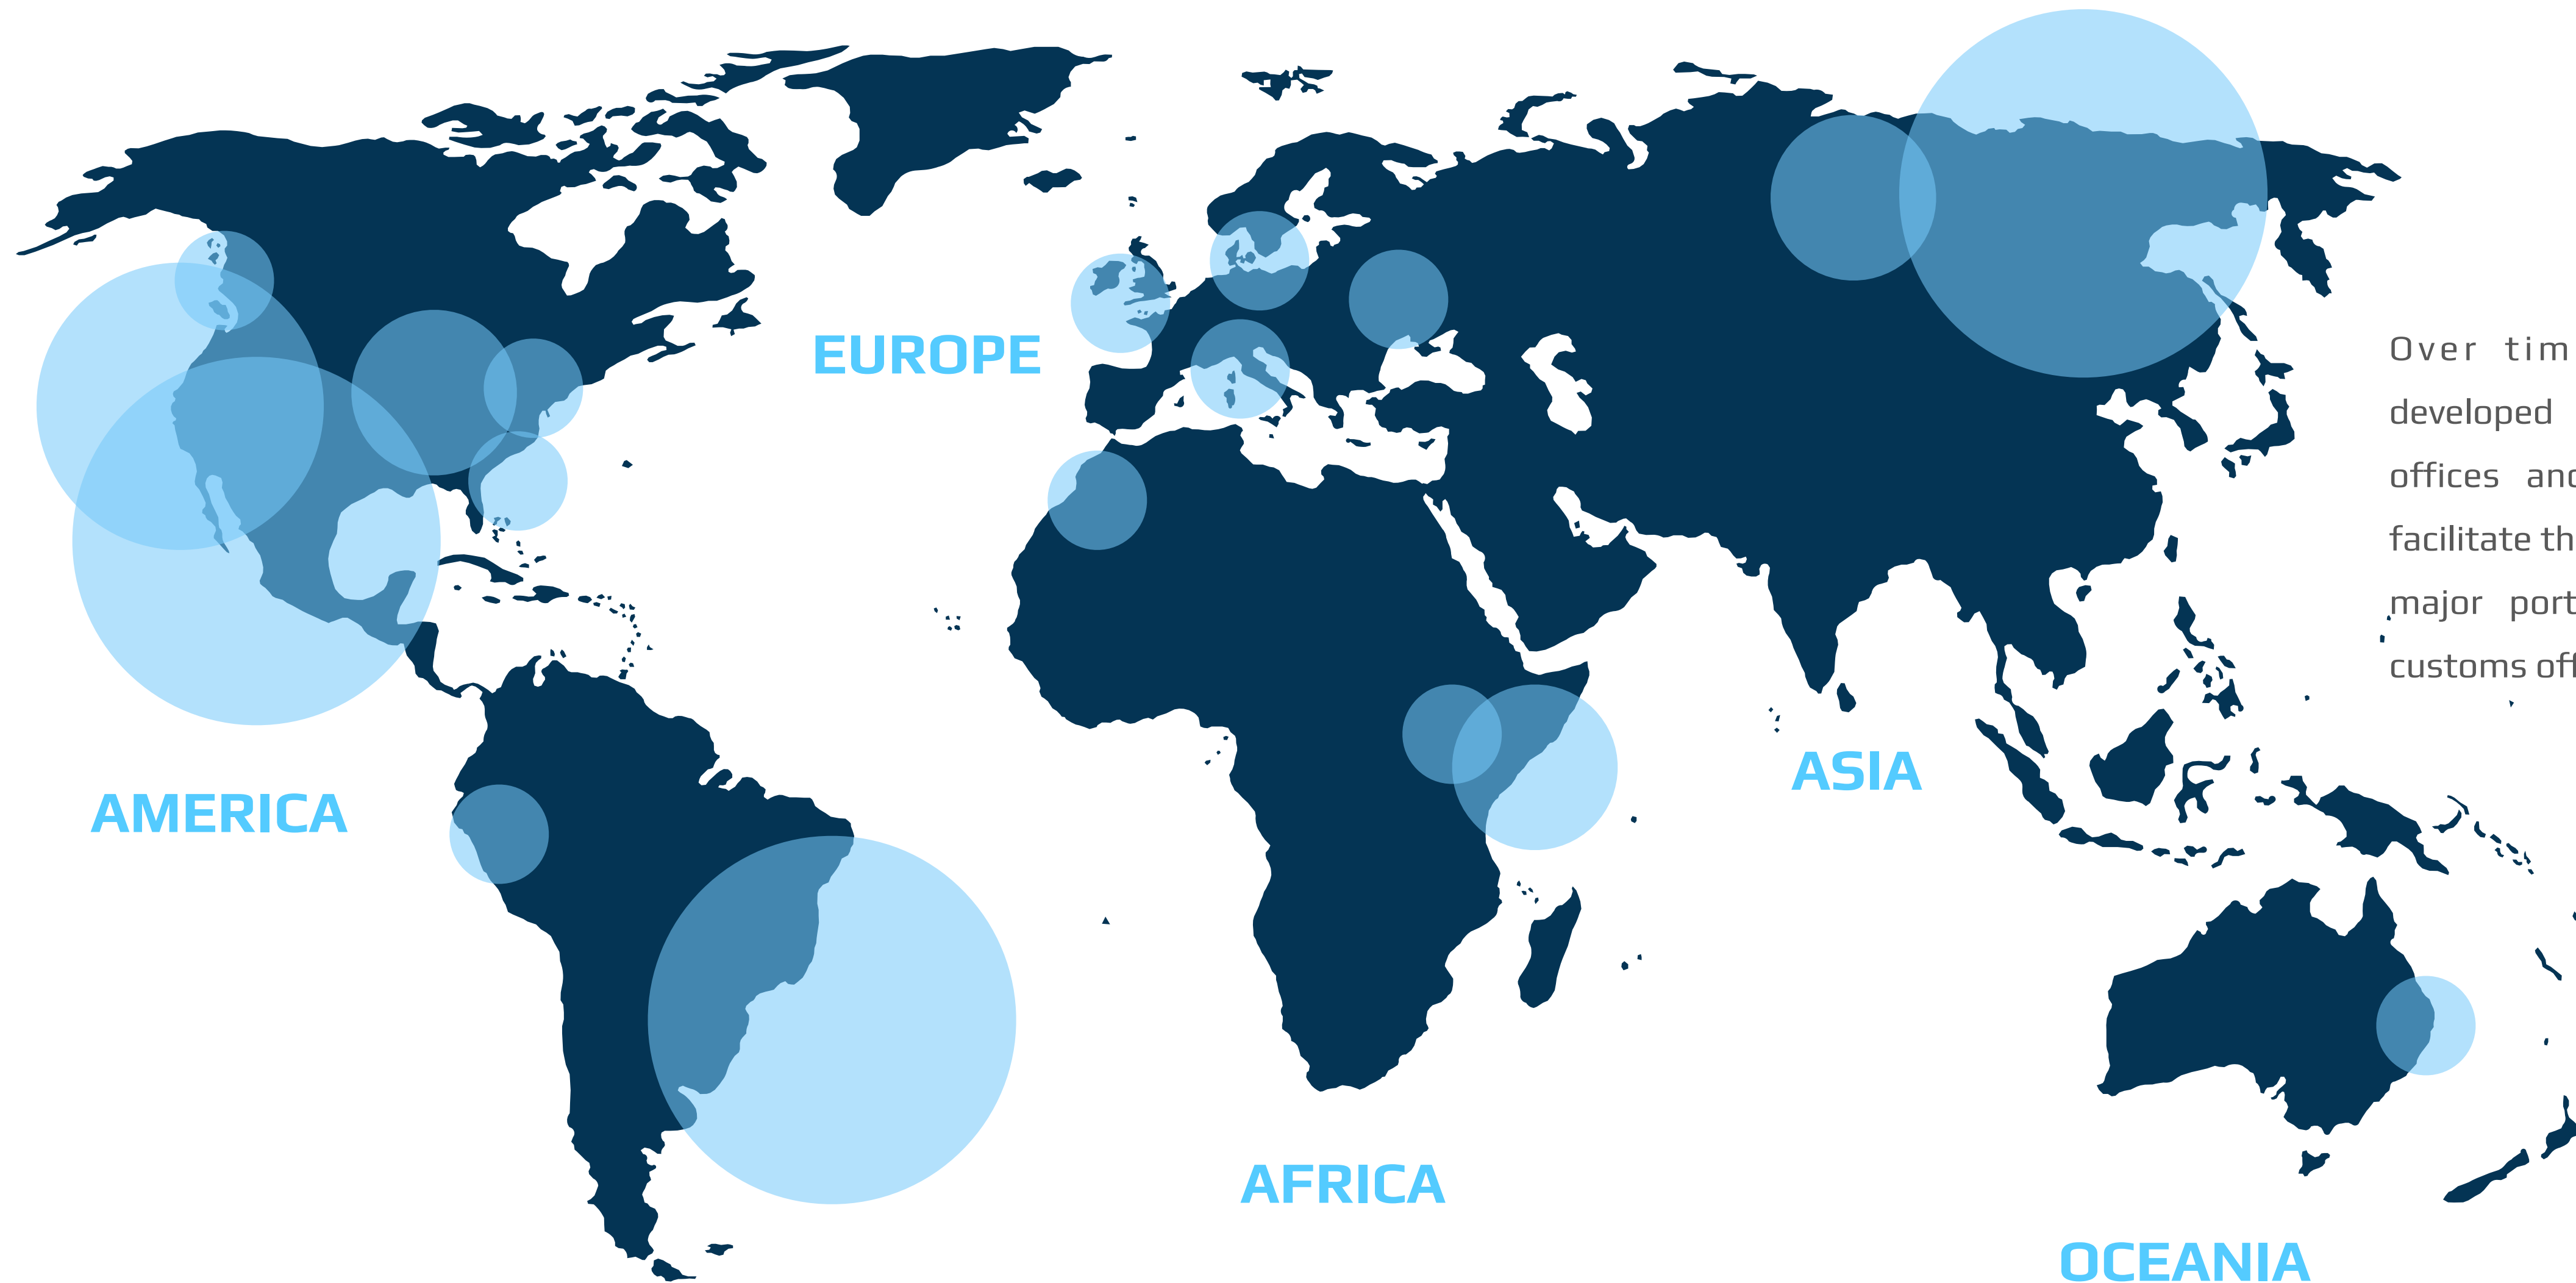

Keeping the processes of digitization and the company's IT evolution constantly updated.

Being consistent with the QHSE (Quality, Health, Safety, and Environment) policy is a cornerstone of our corporate vision.

We recognize the importance of our human capital and invest in the continuous training of our team to ensure cutting-edge skills.

A global Network

Over time, LAB Sped has developed a global network of offices and representatives to facilitate the connection between major ports, destinations, and customs offices.

Why choose us

PEOPLE

The strength of LAB Sped lies in the unique and meticulous relationship established with the client, followed and supported 360°. Choosing LAB Sped also means relying on a highly qualified team of experts who can assist the client at every stage of the project.

INNOVATION

We believe that logistics and supply chain management should support the client and continuously update. From the booking request to delivery, LAB Sped ensures precision and accuracy in the processes.

NETWORK

Since its inception, LAB Sped has worked to build a network of efficient, reliable, and competent representatives worldwide, allowing for all requested destinations to be reached for both imports and exports.

PRECISION

A crucial aspect of shipping practices is document control, as a small error can cause significant problems. LAB Sped, with its multiple checks, ensures a significant reduction in the risk of error.

Our services

By sea

LAB Sped is your reliable partner for international sea shipments, offering a comprehensive range of personalized logistics solutions to meet every transport need.

Our offer includes:

- **FCL (Full Container Load):** We handle any type of container, ensuring efficient and safe transport for your goods.
- **LCL (Less than Container Load):** We provide LCL services, including temperature-controlled ones, for smaller shipments.
- **Door-to-door services:** We offer integrated solutions for FCL and LCL shipments, ensuring smooth delivery from departure to the final destination.
- **Temperature-controlled shipments:** Specialized in the transport of temperature-sensitive goods, we ensure the maintenance of optimal conditions throughout the journey.
- **Out-of-gauge loads, Project Cargo, Break Bulk, and dangerous goods:** We handle complex transports, including exceptional loads and dangerous goods, with professionalism and attention to detail.
- **Foreign-to-foreign triangulations:** We coordinate international shipments between different countries, simplifying operations and reducing transit times.
- **Customs warehouses and brokerage services:** We offer complete support in customs matters, including warehousing and brokerage services for efficient management of formalities.
